

# NitriFresh™

## Technical Data Sheet

**NitriFresh™ is a high concentration of nitrifying bacteria.**

### Helps with:

- Bio Augmentation
- Loss of nitrification
- Nitrifiers
- Nitrification toxicity
- Nitrosomas/Nitrobacter
- Ammonium removal
- Cold water nitrification

### Benefits:

NitriFresh is shipped overnight to ensure the freshness of the nitrifying bacterial cultures. This high concentration of nitrifying bacteria will increase the nitrifying bacteria population in the waste treatment biomass.

### How It Works:

- Nitrifying bacteria neutralizes ammonia.
- The addition of fresh, active and highly concentrated nitrifying bacteria cultures will assist in bringing about increased nitrification in the targeted wastewater treatment system.

### Physical Properties and Packaging:

- Liquid
- Rose to brown color
- Musty odor
- 10-lb./ 4 Liter Container

### Safety and Handling:

Ensure product is stored above freezing temperatures (32°F). Handle according to safety instructions on MSDS sheet. Always wear gloves and eye protection when handling product.
