

Essential Micro 2

Technical Data Sheet

Essential Micro 2 is a customized blend of essential metals and nutrients needed for healthy lagoons and wastewater systems.

Helps with:

- Micro Nutrients
- Nitrification inhibition
- Trace metals
- Nutrient deficiencies
- Anaerobic treatment
- High volatile acids
- Filamentous bacteria reduction

Benefits:

Essential Micro 2 is a compound of solubilized essential trace metallic elements intended to stimulate enzyme reactions to assist existing bacteria to reduce undesirable microorganisms and promote beneficial lagoon life.

How It Works:

- Designed to Improve aerobic wastewater systems by promoting anabolic bacterial growth.
- Reduces Toxicity & unwanted bacteria improving reliability and efficiency.
- Ideal for lagoons, aerations basins and oxidation ditches where deficient trace elements appear as inhibition.
- Essential Micro 2 is specifically formulated to each client's waste stream, based on its essential trace elements profile.

Physical Properties and Packaging:

- Liquid
- Clear to Opaque
- 275 Gallon IBC Tote Bins (One-Way)

Safety and Handling:

Ensure product is stored above freezing temperatures (32°F). Handle according to safety instructions on MSDS sheet. Always wear gloves and eye protection when handling product.
